

October 2016 Newsletter

This month our newsletter will focus on our student resources. Our top priority is to make sure that all of our students are prepared to take their certification exams. One of the most important tools we provide, in addition to our weekly tutoring sessions, is our [Student Resource Center](#). In this newsletter along with our list of veterans who have earned certifications, you will find detailed information on some of the resources that are available to our students.

Tutor Talk with Tristan and Grace

Each week we have three (3) tutoring sessions geared toward our students who are working to obtain their Microsoft Office, CompTIA, or other IT certifications. We talked with Grace and Tristan, our amazing tutors and asked them why you should be attending their sessions. [Click Here](#) to learn what they said.

Veteran Services Discussion Forums

Our forums have allowed all of our students to take part in our educational community. It has been a great way for our veteran students to share their experiences in using our courseware, testing, preparing, and taking certification exams, as well as the sharing of best practices with other students. If you have not registered for the forum, [Sign Up Now!](#)

New Team Viewer Study Group

In an attempt to provide our students with many tools and avenues to succeed we are now offering virtual study groups via the new Team Viewer communication program. The primary benefit is having 24-7 interactive access to other students that are willing to work together outside of the tutor sessions. This is an optional accommodation for the students that wish to study in a group setting. It is also a great way to stay connected to other students and get a different perspective on study materials, habits, test taking techniques, or just chat once in a while. Interaction is totally up to the student - you can speak one-on-one with another student or you can arrange a meeting with everyone in your contact list. You can do with it what you wish.

Finding Exam Results

If you have lost your CompTIA exam results you can view them at the following website:

<https://www1.pearsonvue.com/testtaker/signin/SignInPage/COMPTIA>

Once signed in, click on Exam History under My Account and it will show exams taken, date taken, and whether the student passed or failed the exam.

How Are We Doing? We Value Your Feedback!

Our top priority is to provide all of our students with the support, resources, and knowledge they would need to be successful in their Blue Ocean programs. We want to know how we are doing. In the link below you will find a quick online survey. This anonymous survey will help us determine the areas we need to improve in to help our students have the best learning experience possible. <http://veterans.learnkey.com/feedback.php>

Please join me in congratulating all those who obtained certifications this month and send best wishes to those who are preparing to take an exam in the upcoming month. Don't forget to take advantage of our [weekly tutoring sessions](#) or [practice labs](#).
