December 2018 Newsletter

The new year and a fresh start is just hours away. As we move into the New Year I would encourage everyone to commit to being your best for the upcoming year. Not just in your training, but in any situation, role, or event that comes your way. Just do your best and embrace the energy and momentum that comes with the new year. We are so proud of all of our students and the hard work and dedication they are putting into their certification training. In this month's edition we are highlighting the success of our students and team accomplishments. This year has been great! Let's keep this momentum going and make 2019 the best yet! Happy New Years and keep up the good work.

2018 Update

At the end of the year most of us take a look back on what we accomplished and what we wished we had done better. This year we couldn't be more happy with the accomplishments of our students and our team!

- **Industry Certifications Earned** - So far our students have earned 728 certifications since the beginning of the year! This includes hundreds of students earning their Microsoft Office 2016 (Word, PowerPoint, Outlook, and Excel) and CompTIA (A+ 901/902, Network+, and Security+) along with many who have earned advanced certifications such as CAPM, CDFE, and CISSP, plus everything in between.
- **Tutoring Sessions Attended** - With more than 150 tutoring sessions conducted throughout the year our tutors are kept busy with an average of 15/20 students attending each session and getting the coaching and support they need from our experts.
- **Students Hired** - Our Job Ready Team has placed 98% of the students who have successfully completed their Blue Ocean programs this year. If you are getting close to completing your program, keep up the good work and don't give up! Our Job Ready Team is committed to finding jobs for our students with our employment partners locally and nationally.

There is always room to grow and improve. This year we look forward to improving the support we provide to each of our students and counselors, as we improve processes, grow our team, and laser focus our effort on improving employability everyday!
